8th September 2017

Dear Parent / Carer,

Maths Week 2017

Scottish Maths Week takes place between September 11th-17th and pupils and staff across the school will be participating in a range of activities throughout next week.

On Monday we have six members of staff attending a Maths Exhibition from 16.00 – 18.00 and they will be using their experience to encourage further activities throughout the week.

On Tuesday our Primary 6 and 7 pupils will be taking part in an Outdoor Maths Problem Solving Session in Kelvingrove Park. It is being delivered by PGDE Students from Glasgow University and we would encourage parents to come along and watch their children participating. The Session will take place from 11.00–13.00, close to our Football Pitch. P6 and P7 pupils should bring packed lunches on this day and any pupil who is in receipt of a free lunch can have a packed lunch provided for them. The children will have their packed lunches when they return to school just after 13.00. Please notify the school as soon as possible should you wish a packed lunch to be provided.

On Thursday we have 3 teams of children participating in a Maths Challenge at Hillhead High School. They will be competing alongside P7 pupils from other feeder primary schools in the local area.

Also on Thursday we will have 3 students from Glasgow University's Mathematics and Statistics department coming in to work with Primary 4. They will be carrying out 3 workshops throughout the day and it will include a Number Hunt outside in the grounds of the school, a problem solving challenge and a Shape activity.

Keep an eye on our Twitter page for pictures of our activities throughout the week!

Yours sincerely,

Andrew Robson
Depute Head Teacher
