

Numeracy Home Learning – August/September 2021

Task 1	Task 2	Task 3
<p style="text-align: center;"><u>Number Hunt</u></p> <p>We have been looking to spot different numbers in all kinds of places around school. Some of the numbers we have been able to find include 2 bottles of soap in our classroom and the number 1 on our doors. Can you go on a number scavenger hunt around your house? Try to find as many examples of numbers as you can. Where can you see different numbers in your house? Maybe you could look in a book or newspaper too? You could also make some number cards (each card showing a different number) and try to put them in order or identify the missing number if someone at home takes one card away.</p>	<p style="text-align: center;"><u>Number Formation</u></p> <p>We have begun learning about the numbers to 10. Can you try to practise forming your numbers?</p> <p>You can try using a pencil or a pen and paper. You could also try writing your numbers in the air using a finger or use Play-Doh, shaving foam, cooked spaghetti or chalk/crayons.</p> <p>Once finished, check to see if all the numbers are facing the correct way.</p>	<p style="text-align: center;"><u>Board Games & Card Games</u></p> <p>Playing card games and board games gives us an opportunity to practise focusing and to improve our counting.</p> <p>Do you have a board game that you can play with someone at home?</p> <p>If not you could print the attached game of snakes and ladders. You can also access a free online dice or a dice app to play with too.</p>
<p style="text-align: center;"><u>Days of the Week</u></p> <p>Practise saying the days of the week aloud in the correct order.</p> <p>You could also practise saying the months of the year in order.</p> <p>You can find some 'Jack Hartman' songs on youtube to help you learn the Days of the Week and the Months of the Year</p>	<p style="text-align: center;"><u>Data Handling</u></p> <p>Can you keep note of the weather this week? Then use the data you collect to make a tally chart that shows how many days were sunny or rainy?</p> <p>You could also look outside the window and make a tally chart of all the red, blue or white cars that drive along your street.</p>	<p style="text-align: center;">Online learning & websites</p> <p>Topmarks counting game https://www.topmarks.co.uk/learning-to-count/underwater-counting</p> <p>Doorway online number formation https://www.doorwayonline.org.uk/number/upto10/</p> <p>ABCYa numerical order game https://www.abcya.com/games/numerical_order</p> <p>Counting to 10 song https://www.youtube.com/watch?v=pzmB0GoEKkA</p> <p>Months of the year song https://www.youtube.com/watch?v=bp4365To218</p> <p>Days of the week song https://www.youtube.com/watch?v=z1J...8Qo</p>
